Round 3

Decision Node: Artifact is real or fake?

Real

fake

Owner gains its price value

Rare

Double the price gained

Owner loses \$1000.

Decision Node : Was the suspicion correct?

Yes

No

Suspicion player gains \$500.

No changes

Round 1

Pitching phase

1. Select an artifact to auction (collective vote).
2. Owner gives a short pitch (tries to convince)
3. Players may place suspicion tokens (optional).

Auction phase

Appraiser starts a 45-second auction.

Decision Node : Is there anyone bidding?

Yes

No

Highest bid wins artifact.

Artifact returns to owner.

End of Game

Player with more authentic artifacts and money wins :)
